

APPLICATION REQUIREMENTS:

This modification is available to Model GT, GH and GSD standard door operators with Variable Speed Modifications.

FUNCTIONS

Provides and adjustable “ramp down” or soft stop at the full open and full closed position. Recommended on very heavy doors or where high door usage is expected. **NOTE:** *Door will not “RAMP DOWN” when stopped or reversed in mid travel.*

WIRING:

Refer to the wiring diagram supplied with the operator. If this diagram is missing, or you are unsure of wiring requirements please call Technical Service @ 1-800-528-2806.
